PYTHON INTERNSHIP PROGRAMME - CHAKRA

SK.SAHISTA FATHIMA

FEEDBACK MANAGEMENT SYSTEM - 23

FUNCTIONALITIES

1. Feedback Collection

- Allow users to enter feedback.
- Store user name, ID, department and feedback.
- Validate mandatory fields.

2. Feedback Submission

- Allow users to submit their feedback.
- Display successful submission message.

3. Submission Confirmation

- Ask the user to confirm before submitting.
- Display feedback details after successful submission.

4. Duplicate Feedback Prevention

- Prevent the same user from submitting duplicate feedback.
- Display a warning when duplicate feedback is detected.

5. File-Based Storage

- Store feedback records in a file.
- Maintain feedback data for later analysis.

6. Feedback Analytics

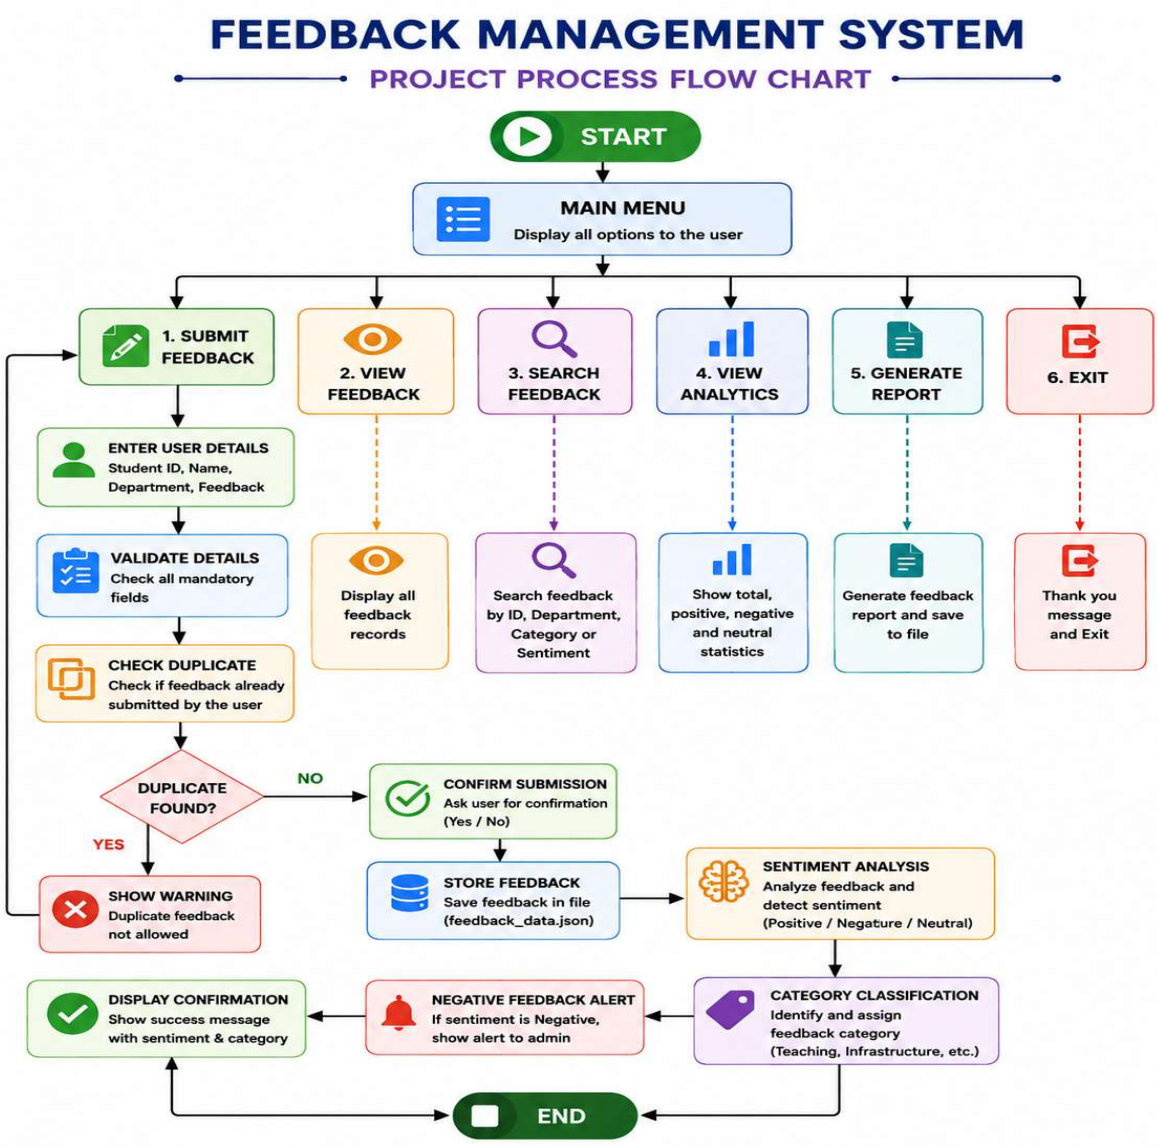

- Display total number of feedback records.
- Display positive, negative and neutral feedback counts.

.

ADDITIONAL FUNCTIONALITIES

- The system analyzes the feedback and classifies it as: Positive ,Negative ,Neutral
- The system automatically identifies the feedback category
- Negative Feedback Alert
- Feedback Search
- Feedback Report

FEEDBACK MANAGEMENT SYSTEM PROCESS

PROGRAMME :

```

Thank You For Using Feedback Management System

CONCLUSION :

This project helped me understand how a **Feedback Management System** can be developed using Python. The system can collect feedback from students, avoid duplicate submissions, display the stored feedback and provide basic feedback analytics.

I also added some extra features like **sentiment analysis, feedback category, negative feedback alert, search option and feedback report**. These features make it easier to understand the feedback and identify the areas where improvement is needed.

By doing this project, I got practical experience with **Python functions, dictionaries, loops, conditions and handling data**. Overall, this project helped me understand how the concepts I learned in Python can be used to develop a simple real-world application.

THANK YOU

Presented by Sk.Sahista Fathima,B.TECH-4 Year in CSE-AI&ML at RISE Krishna Sai Prakasam Group Of Institutions.
